Sleep comes naturally.

HYPNOS[®]
THE MOST COMFORTABLE BEDS IN THE WORLD
LE LIT LE PLUS CONFORTABLE AU MONDE

Introducing the Castle Series.

When you've been creating the most comfortable beds in the world for over a century, introducing something new is sure to get people's attention. That's what we've done at Hypnos with our new line of beds - the Castle Series. We've combined the best of old world detail and craftsmanship with new world innovation to create a series of beds that offer you a healthy and natural sleeping environment.

Sleep comes naturally.

The Castle Series features three new mattresses: The Helmsley, Carlisle and Sherbourne. Each is manufactured using only the finest natural materials and fibres. Our fills are made from unique blends of cotton, wool and silk - made to breathe, stay clean and provide you with a healthy, eco-friendly sleep environment. By not using chemicals or foam, you can rest assured you are not breathing any off-gasses or absorbing harmful chemicals.

Feel rested.

Our Castle Series beds are well designed and manufactured offering you a sound sleep, night after night, year after year. The only thing you'll ever feel sleeping on one of our beds, is well rested. In fact, we're confident you'll enjoy one of the finest sleeps of your life.

Comparing brands.

When you compare other brands with Hypnos, it's important to find out the details. Our beds are manufactured using natural fibres that are comfortable, absorbent and breathable. We don't use chemicals nor do we use petroleum foam. Nature has always been our inspiration for creating a pure experience that will help you sleep the way you were meant to.

The Hypnos advantage.

Hypnos has been creating the finest beds in the world for over four generations. We understand the importance of a good bed to your overall health and we create our beds to give you exceptional body support. The Castle Series uses zoned pocket coils which help perfectly balance the distribution of your weight, giving every inch of your body years of consistent and correct support.

A refreshing sleep experience.

Our Castle Series beds offer natural dust mite and mold/mildew control. Our unique design and combination of natural fibres allows our mattresses to breathe so the natural moisture you lose at night is whisked away from you and out of the mattress, leaving the mattress clean, healthy and allowing you to wake up feeling refreshed.
